AUTO POINT POWDER COATING

Custom, Batch & Production Jobs

POWDER COATING provides a durable baked-on finish that remains smooth and easy to clean.

The final product is highly resistant to most chemicals, brake fluid, acids, and salt, and yet it demonstrates surface properties

that can be as much as ten times more durable than ordinary paints.

Powder coating is the technique of applying dry paint to a part and we have a large selection of colors and finishes to choose from.

THE PROCESS:

The powder is applied with an electrostatic spray gun to a part that is at ground potential. All our preparation and coating is done by hand – not machine – so that we are able to pay close attention to detail.

To obtain the final solid and tough coating, the powder coated items are placed in an oven and heated to 410°F.

The final coating may range from high gloss to flat matte depending on the powder.

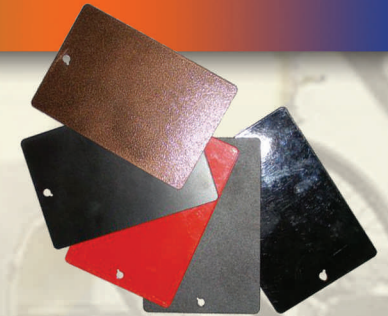

Powder coating is environmentally friendly and virtually pollution-free. Since the powder particles are electrostatically charged, the powder wraps around to the back of the part as it passes by towards the air off-take system. By collecting the powder, and filtering it, the efficiency of the process can be increased to 95% material usage.

ADVANTAGES:

- Improved Appearance
- Exceptional Toughness
- Durability
- Scratch-Resistant
- High Quality
- Colorful
- Versatile
- Long Lasting
- Enhanced Durability
- Corrosion Resistance

WHAT TO POWDER COAT?

- Bumpers & Grill Guards
- Industrial Fabrications
- Trade Show Exhibits
- Metal Fencing And Railings
- Retail Displays & Fixtures
- ATV Frames & Parts
- Bicycle Frames & Parts
- Dryer Drums
- Refrigerator Liners
- Metal Furniture
- Electrical Cabinets
- Lighting Fixtures
- Custom & Classic Car Parts
- Motorcycle Frames, Wheels & Parts
- Outdoor Furniture Restoration

About A AutoPoint:

Founded In 1979 • Over 20,000 Sq Ft In The Repair Facility
2 Downdraft Spraybooths • 4 Prep Decks • 7 Office Support Employees
Powder Coating Oven On-site • Mobile Paint Unit Available
Body & Paint Technicians Are I-car Certified
